### STAFFING UPDATES:

**Ms. Gen** has decided to leave Kids Campus and to go back to Spansion. She will continue to Sub for us as her schedule allows.

**Ms Sara K is back!** Her name is now Sara Willis since she got married in January. Nina and Sara will be working together as office assistants; Nina in the morning, Sara in the afternoon. We are so glad to have her back!

We are in the process of increasing our

staff at KCLC therefore, we are busy interviewing for several positions. We will keep you updated with any new hires.

I want to take a minute to fill you in on the very exciting project that I am involved in. I, along with 25 other Child Care owners and directors throughout the Austin area were chosen to take part in a pilot project called Director Leadership Academy; a project of the Quality Child Care Collaborative (QC3).

**Taking Charge of Change (TCC)** is an innovative model of professional development designed to improve the quality of care and education of young children by focusing on the leadership and management skills of the directors who oversee the programs that children attend. The TCC model has been successfully implemented in Illinois for 16 years, putting the state at the forefront of leadership development for early childhood administrators. The goal is to support the leadership development for early childhood center directors.

**Taking Charge of Change AUSTIN (TCCA)** has recently gained recognition from our Legislators as well as the TCC coordinators in Illinois because of the support structure that has been put in place. Prior to rolling out the program, project coordinators found funders as well as partners so the leadership training could be offered to more directors in the Austin area. So, if you hear about TCCA on the news or on "Oprah", you'll know that Kids Campus is involved in defining quality child care and education in Austin ☺
